PRICE CODE: CHY

Cherry is a smooth-grained, reddish-brown hardwood known for its pitch marks (worm holes), mineral streaks and beautiful patina aging process. The patina/darkening process is most rapid during its first year and continues as it is exposed to light creating the richness cherry is so prized for. It is considered a medium hardwood most prevalent in the northeastern States derived from American Black Cherry fruit trees.

QUARTER SAWN WHITE OAK

Stuart David
Home Furnishings

Wood Finishes

PRICE CODE: QS

Quarter Sawn White Oak is named for the angle in which it is cut distinguishing it from your traditional oak furniture. The cut gives its distinguished tiger-ray grain pattern often used on mission style furniture. White Oak is a hard and strong Northeastern American wood used to build furniture that stands the test of time.

Care Instructions

Those who select Stuart's Furniture enjoy years of beautiful use with minimal care. Maintain the beauty of the finish by protecting it from wear, spots, spills and by keeping it clean and dust free. Dust regularly, rubbing in the direction of the wood grain with a lint-free, absorbent cloth moistened by a few drops of furniture polish to keep this furniture looking its best. Avoid exposure to strong sunlight, which causes discoloration. Lift objects carefully; avoid dragging them over the wood surface. Avoid extreme heat and cold. Do not use polish remover, hair spray or perfume near the furniture, as this may damage the finish. Rubber or plastic products can sometimes cause a chemical reaction, which may deteriorate the finish. Do not use products containing silicone.

Care Instructions

Those who select Stuart's Furniture enjoy years of beautiful use with minimal care. Maintain the beauty of the finish by protecting it from wear, spots, spills and by keeping it clean and dust free. Dust regularly, rubbing in the direction of the wood grain with a lint-free, absorbent cloth moistened by a few drops of furniture polish to keep this furniture looking its best. Avoid exposure to strong sunlight, which causes discoloration. Lift objects carefully; avoid dragging them over the wood surface. Avoid extreme heat and cold. Do not use polish remover, hair spray or perfume near the furniture, as this may damage the finish.

Rubber or plastic products can sometimes cause a chemical reaction, which may deteriorate the finish. Do not use products containing silicone.

Standard Features:

- All wood drawers assembled with dovetail joints for strength.
- Drawer interiors are smoothly sanded and lacquer-sealed.

- Drawers suspended with heavy duty full extension guides allowing for effortless opening and closing.

- Tenons are a key element of construction. A board's end is cut off for insertion into a mortise. Tenons are then secured with wood pins.

- Permanent joint construction. We use a variety of joint construction methods that are time tested to ensure life long durability and strength.

- Case backs (1/4" thick) with recessed back panels.

Stuart David

Home Furnishings

One size does not fit all. That's why Stuart David has created such an extensive Home Office Collection, designed with a variety of sizes and configurations, allowing you to pick the quality pieces that fit your needs the best. With our Home Office program you can create a: straight, wedge, partner, L or U shaped desk with options like: drawers, doors, file drawers, printer pullout shelf, or a space for your computer tower. You don't just get to choose the handmade pieces and configuration either; You also get to choose how they look with custom options like style, solid wood, finish, and hardware. Come visit our 25,000 square foot factory showroom to see the American made difference at Stuart David.

- 5 Wood, Finnish & Hardware

62" Short, Sierra Vista, C2, DGD
Shown in Walnut

Construction Features:

- All wood drawers assembled with dovetail joints for strength.
- Drawer interiors are smoothly sanded and lacquer-sealed.

- Drawers suspended with heavy duty undermount **full extension soft-close** guides allowing for effortless opening and closing.

- Tenons are a key element of construction. A board's end is cut off for insertion into a mortise. Tenons are then secured with wood pins.

- Permanent joint construction. We use a variety of joint construction methods that are time tested to ensure life long durability and strength.

- Case backs (1/4" thick) with recessed back panels.

Standard Features:

- All wood drawers assembled with dovetail joints for strength.
- Drawer interiors are smoothly sanded and lacquer-sealed.

- Drawers suspended with heavy duty **full extension** guides allowing for effortless opening and closing.

- Tenons are a key element of construction. A board's end is cut off for insertion into a mortise. Tenons are then secured with wood pins.

- Permanent joint construction. We use a variety of joint construction methods that are time tested to ensure life long durability and strength.

- Case backs (1/4" thick) with recessed back panels.

American Made Solid Wood Furniture

Stuart David Home Furnishings is a 3rd generation family owned and operated furniture manufacturer. We have sold handcrafted, Solid wood American made furniture since 1961. Our company started as just a single cabinet shop. Today we manufacture solid wood furniture that we sell from our California factory showroom and via authorized furniture dealers. When you buy from Stuart David Furniture, you support a family owned company who values American workers. All of our solid wood furniture is made here in the United States.

 We also adhere to a strict set of environmental standards. We source our solid wood materials from sustainable forests, we operate a modern recycling system, and we utilize environmentally-friendly wood finishes and shipping processes. When you buy home furniture from Stuart David, you can rest assured your purchase had a minimal impact on the environment.

Care Instructions

Those who select Stuart's Furniture enjoy years of beautiful use with minimal care. Maintain the beauty of the finish by protecting it from wear, spots, spills and by keeping it clean and dust free. Dust regularly, rubbing in the direction of the wood grain with a lint-free, absorbent cloth moistened with a few drops of furniture polish to keep this furniture looking its best. Avoid exposure to strong sunlight, which causes discoloration. Lift objects carefully; avoid dragging them over the wood surface. Avoid extreme heat and cold. Do not use polish remover, hair spray or perfume near the furniture, as this may damage the finish. Rubber or plastic products can sometimes cause a chemical reaction, which may deteriorate the finish. Do not use products containing silicone.

in 5 Easy Steps:

- 1 Size
- 2 Style
- 3 Configuration
- 4 Options
- 5 Wood, Finnish & Hardware

62" Short, Sierra Vista, C2, DGD
Shown in Walnut

Construction Features:

- All wood drawers assembled with dovetail joints for strength.
- Drawer interiors are smoothly sanded and lacquer-sealed.

- Drawers suspended with heavy duty undermount **full extension soft-close** guides allowing for effortless opening and closing.

- Tenons are a key element of construction. A board's end is cut off for insertion into a mortise. Tenons are then secured with wood pins.

- Permanent joint construction. We use a variety of joint construction methods that are time tested to ensure life long durability and strength.

- Case backs (1/4" thick) with recessed back panels.
