# TRAILWAY'S ONE GRADE SPECIES .

Trailway offers exclusively One Grade wood species. To maintain consistent quality, we have invested in an in-house rough mill that carefully sorts lumber to meet Trailway's standards. This process guarantees that customers receive furniture of a quality we would proudly have in our own homes. Located within the factory, Trailway's rough mill is where the One Grade wood is produced. This grade combines both premium and character wood sourced from the same tree, ensuring a harmonious blend.

**Below is what to expect from the Trailway's One Grade Species:**

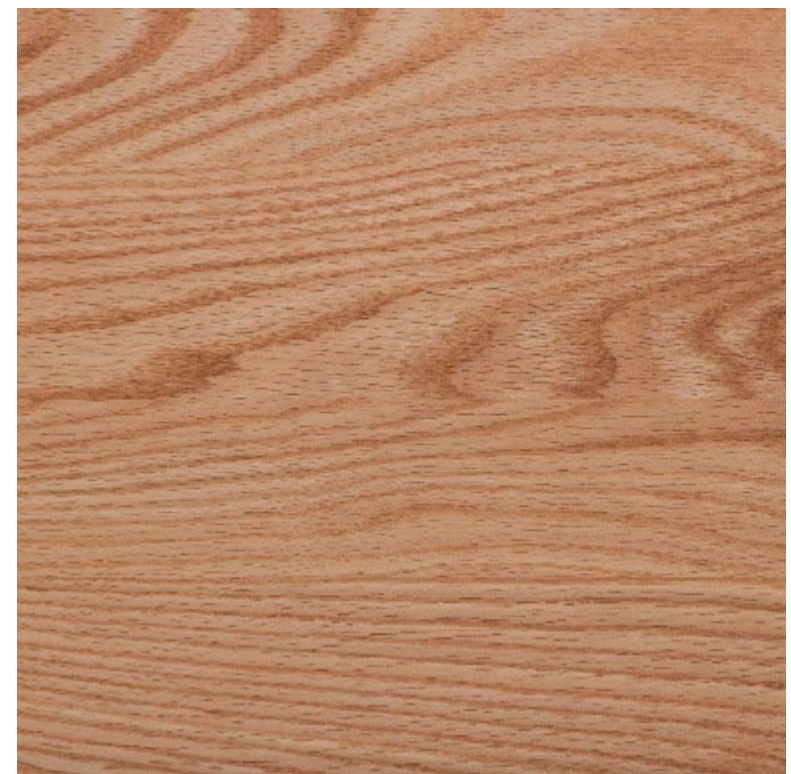

**MAPLE** *Janka Scale: 950* Within Maple furniture boards you will see a blend of white and brown boards, white boards grow on the outer parameters of the tree whereas the brown boards come from the inner part of the tree. Both come from the same tree. This is a closed grain wood and works well when you want it painted.

**CHERRY** *Janka Scale: 950* Cherry takes on a more relaxed feel, With all the natural knots and grain variations. With all the natural knots, pits, and sap pockets, it brings a truly unique look to your furniture.

**HICKORY** *Janka Scale: 1820* Revealing all the tree's naturally beautiful markings and color variations, you will see knots along with a blend of white and brown boards, white boards grow on the outer parameters of the tree whereas the brown boards come from the inner part of the tree. Both come from the same tree. Having a nice blend of both creates a very unique look.

**RED OAK** *Janka Scale: 1290* With a traditional, Open grain textured look, Red Oak is a popular hardwood that offers durability and strength to stand up to years of day-to-day living.

**QSWO** *Janka Scale: 1333* Cut perpendicular to its growth rings, revealing all of the tree's naturally beautiful markings, Quarter Sawn White Oak has a down-home feel. You can expect knots, rift sawn and ray flakes. The beauty of these boards and their distinct grain patterns all come from the same tree.

**AMBROSIA MAPLE** *Janka Scale: 950* Ambrosia Maple gets its name from the Ambrosia Beetle who makes a hole in the wood. As the tree grows, the wood around the hole turns brown making each piece very unique.

# TRAILWAY'S ONE GRADE SPECIES .

Below is what to expect from the Trailway's One Grade Species:

## TIGER MAPLE *Janka Scale: 950*

With a unique Tiger Stripe texture, Tiger Maple character offers a rich, delectable choice that you can appreciate if stained in a medium to lighter color tone.

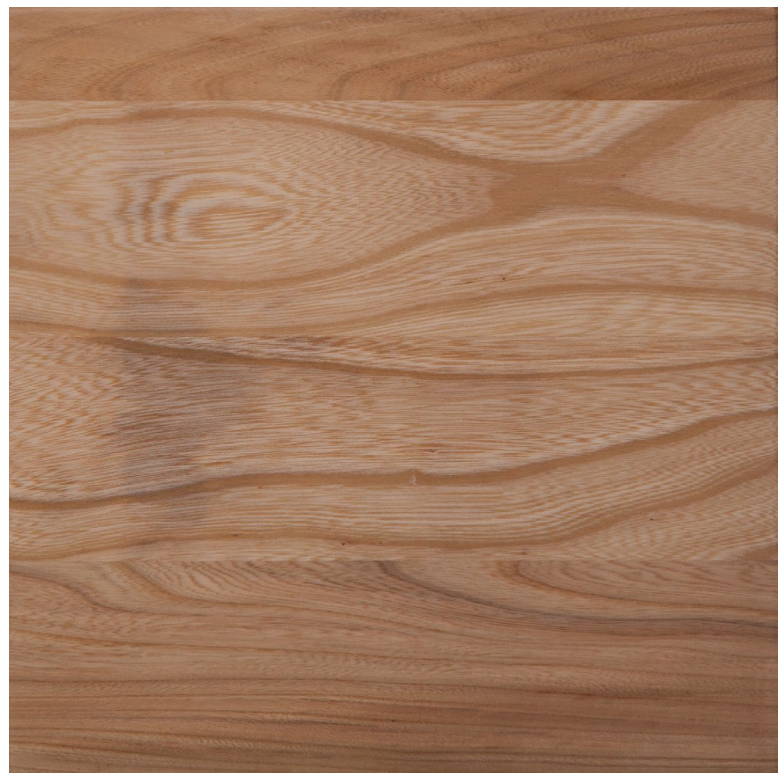

## RED LEAFY MAPLE *Janka Scale: 950*

The Red Leafy Maple tree grows in the eastern part of North America. It can live in many places, in forests, and even in cities. The wood from the Red Leafy Maple tree is a light color creamy whitish color and works well if you are looking for a more natural tone.

## KNOTTY RED OAK *Janka Scale: 1290*

Knotty Red Oak boasts the burls, knots and other natural markings that give you an open grain textured look. It is a popular hardwood that offers durability and strength to stand up to years of day-to-day living.

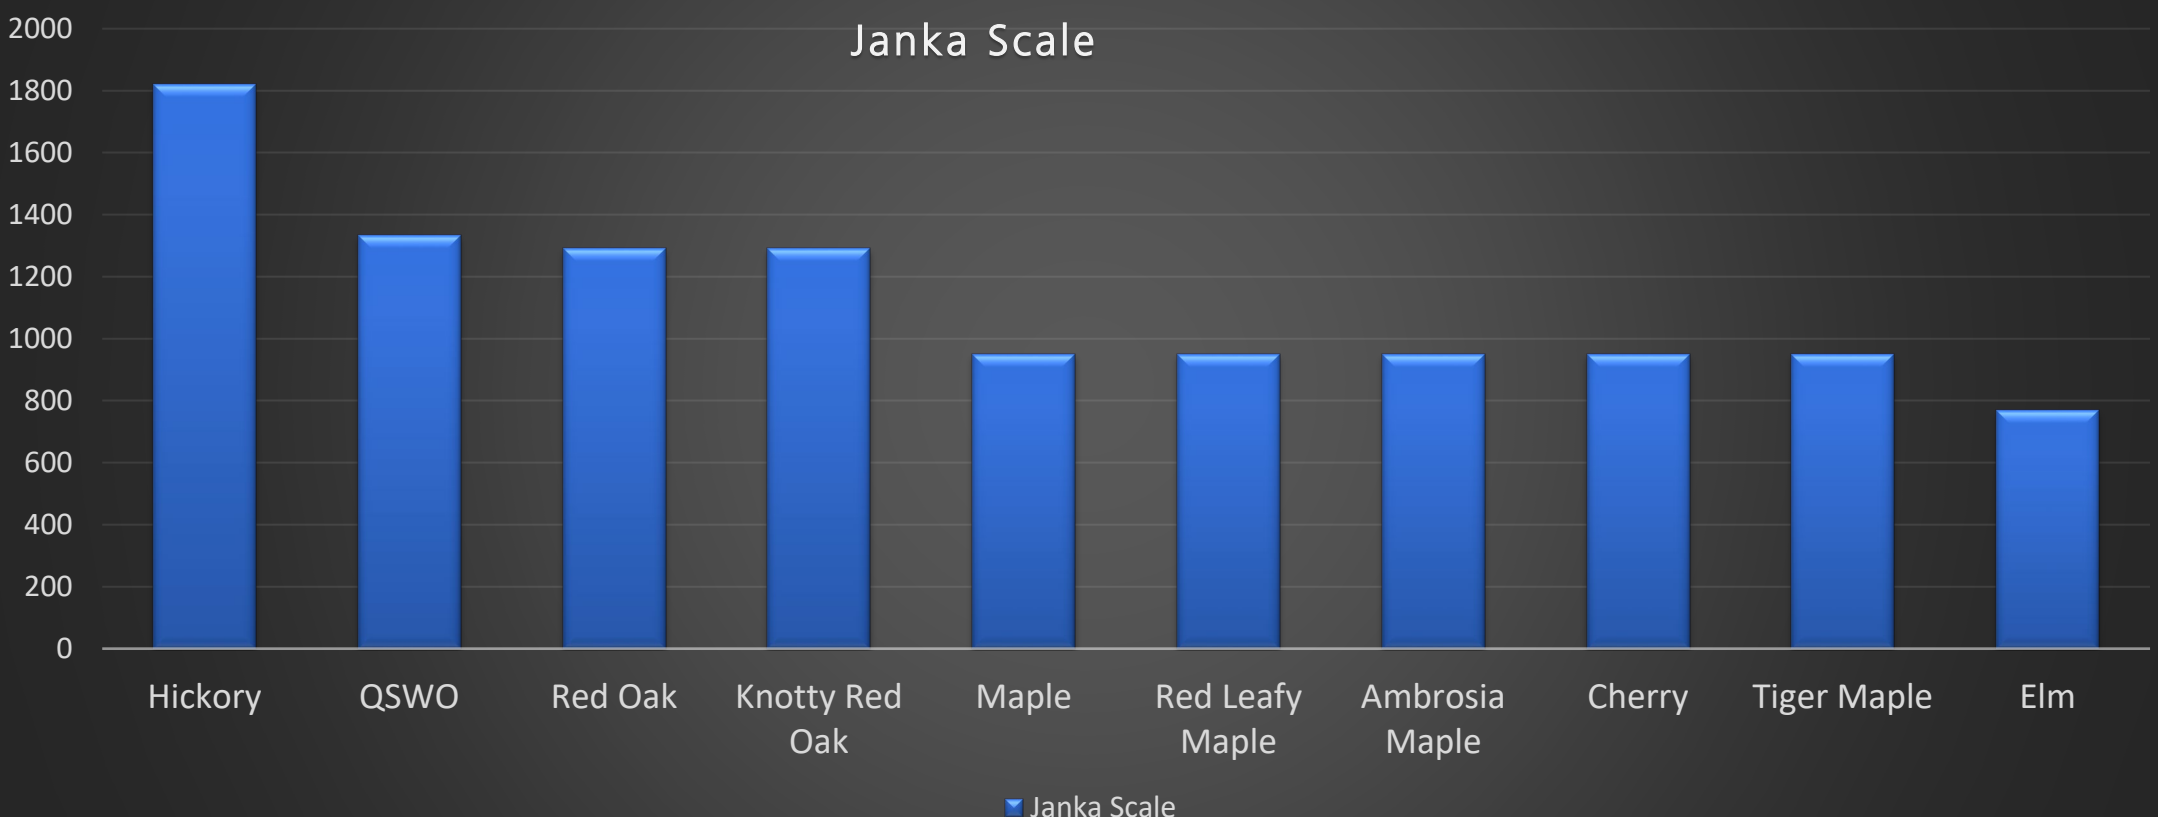

## ELM *Janka Scale: 769*

With excellent pliability, Elm is the softest hardwood we offer but a great choice for decorative styles. Found in light and darker shades of brown, it features a unique interlocking grain.

 **FLAT SAWN WHITE OAK = DISCONTINUED**

*Janka Scale embodies the pressure in pounds that it takes to mar the hardwood, A higher numbers means the wood is harder. See below for a Graph comparison to each species.*

## MOST IMPORTANT MESSAGE IN OUR CATALOG

Is your family expanding? Or are you having friends or relatives over soon? If so, our 4 leaf tables are an extremely great value. Below is an example of the Bourbon Trail Table. Based on BRT4266-2L vs BRT4266-4L.

Upgrade now for:

Versus later (2 leaves):

To add an additional Leaf to an existing table use this SKU: **LEAF**

Price Per Leaf Only:

*\*Please include your original Purchase Order, and a description of the leaf.*

*\*Must send in 2 existing leaves to match. Leaves will not come from same tree.*

The above picture shows a standing tree and how the boards are cut from the tree after it is harvested

Picture: Hand Plane  
(Hand Planes are used to smooth out the surface of wood)

## BENCH-MADE MANUFACTURING

Each edge of each board is made to fit exactly with another. Boards are matched for grain and color. Holes are precisely drilled to exact standards for table pins before assembling slides, base plates and aprons. Then tabletops undergo further sanding to prepare them for finishing. No time is spared in making sure surfaces are ultra smooth to receive the chosen stain. Every Trailway table and chair is made to the same high standards of craftsmanship.

## THE FINEST WOODS

# STAIN & PAINT OPTIONS

Note: All stains can be applied to all wood species, Colors shown are approximate

Trailway Handcrafted Furniture	OCS-100 Natural	OCS-104 Seely	OTS-566 Caramel Cocoa	OTS-032 Ice Coffee	OTS-570 Overtime	OCS-119 Cappuccino	OTS-482 Dark Roast	OTS-540 Turkish Coffee	OCS-122 Cocoa	OCS-118 Antique Slate	OTS-500 Gunsmoke	OTS-504 Aged Centennial	OCS-113 Michael's	OCS-228 Rich Tobacco	OTS-526 Blackened Mocha	OTS-515 Pitch Black
Maple																
Cherry																
Hickory																
QSWO																
Red Oak																

Our beautiful stains are hand applied to produce a rich, lasting finish. To choose the right color for your Trailway furniture, consider the mood you want to reflect in your home's décor. Darker shades tend to look more formal or modern, while lighter stains can feel more traditional or casual. And be sure to keep in mind that the stain color you choose will result in a different look depending on the wood species. We also offer a variety of paint options. The combination of stained and painted pieces together on a table or chair is perfect for more casual décors.

**OCS** stands for Ohio Certified Stain / **OTS** stands for Ohio Trailway Stain (we add clarifier & stabilizer)

Pick your height, All benches available in Dining, Counter or Bar Height, all heights are the same price.

## Roughsawn Wood Bench

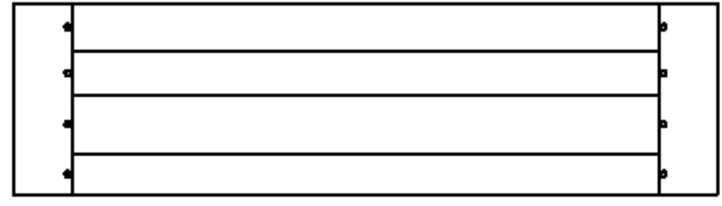

Roughsawn Wood Bench is std. 16" depth, 1 1/4" thick Wood seat, 20% Sawmarks, No Grooves, Eased Edge, SQ Leg

Even though the tree is dead, Solid Hardwood will expand & contract due to changes in humidity. Breadboard Tops have boards running parallel and perpendicular. You can expect this tenon to expand & contract in different climates. To minimize the movement, the ideal humidity is 40-45%.

Roughsawn Wood Bench std with:

1 1/4" Thick Top, BreadBoard Ends, 20% Sawmarks, No Grooves

Cattleman's Ranch Table Edge comes std: Eased w/Hand-Hewn Edge

Tables come std. w/Gear Slides | Tables come std. 30" Dining Height

TableTop std with: Chunky Gorilla 3" Thick Top, BreadBoard Ends, 50% Sawmarks) Only available in Chunky Gorilla Top Shape & Eased w/ Hand-Hewn Edge. Additional TableTop & Edge Options available for 1 1/4" Smooth Tops (No Breadboards) -Free (see TableTop & Edge Options index)

Solid Top style shown above

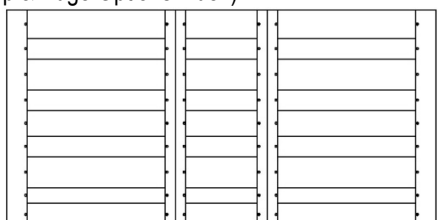

Table with 1-18" leaf shown above

Chunky Gorilla 3" Edge Top comes standard w/ Bread-Board Ends, and Square Pegs

Even though the tree is dead, Solid Hardwood will expand & contract due to changes in humidity. Breadboard Tops have boards running parallel and perpendicular. You can expect this tenon to expand & contract in different climates. To minimize the movement, the ideal humidity is 40-45%.

Even though the tree is dead, Solid Hardwood will expand & contract due to changes in humidity. Breadboard Tops have boards running parallel and perpendicular. You can expect this tenon to expand & contract in different climates. To minimize the movement, the ideal humidity is 40-45%.

# JUST THE WAY YOU WANT IT

So now it's time for the nitty gritty - choosing the edge profile and top shape for your Trailway table. It's simple. Obviously, the edge profile is the shape of your table around the edge. You'll find smooth, straight and more decorative options. For your tabletop shape, you can choose from classic rectangular and round shapes to more unique designs. Nearly any top shape can be combined with any edge profile. Ask your dealer for suggestions that will help you achieve the look you want.

**TOP SHAPE OPTIONS (FREE)** With lots of top shape choices, your Trailway table can be created to fit and enhance any space in your home.

RE-RECTANGLE

ST-STRAITCUT

SM-STATESMAN  
*(1/2" Radius on Corners)*

EM-EMBASSY  
*(3" Radius on Corners)*

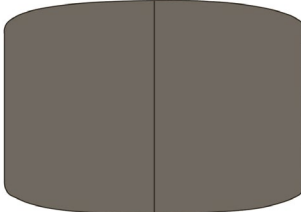

RN-ROUND

# QUALITY FEATURES

Built with top quality at every step, Trailway Heirloom furniture includes dozens of special details that ensure your new table and chairs are built to last. Joints, slides, gears and other construction essentials are implemented with precision and tested for performance, promising you years of enjoyment through the heaviest everyday use. Attention to detail is a hallmark of Trailway craftsmanship.

## WOOD SLIDES

Wood slides offer smooth gliding operation.

## GEAR SLIDES

Precision gear slides open and close quickly to uncover self-stored leaves. *\*See each collection to see if self-storing is an option.*

## ADJUSTABLE LEVELERS ON TABLE LEGS (FREE)

**THIS IS ALSO ON THE CENTER LEGS**  
Designed to make it easy to adjust and level your dining room furniture. Simply turn the levelers up or down to reach the desired height you are looking for.

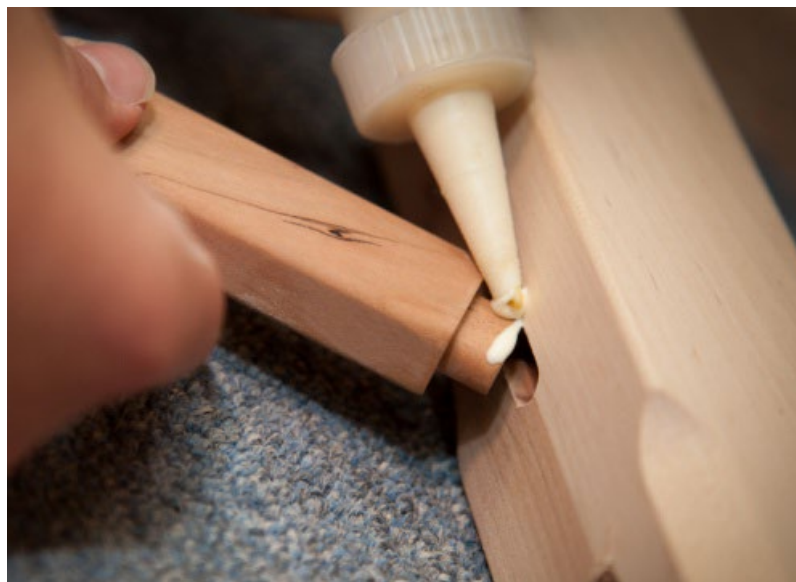

## ADJUSTABLE FELT LEVELERS ON TABLE LEGS (FREE) THIS IS ALSO ON THE CENTER LEGS

These help keep your floors free from scratches. They are available upon request.

## TABLE LEAF PEGS

Durable wooden pegs ensure table leaves fit snug and securely for hassle-free dining.

## MORTISE & TENON JOINTS

Trailway construction features tenons securely glued into mortise holes, a simple and strong solution for joining wood furniture pieces together.

## CHAIR FELT GLIDES ON CHAIR LEGS (FREE)

These felt glides come standard on all 4 legs of your chair and will help keep your floors free from scratches.

# LINEAR LIGHTING

Integrated LED linear lighting illuminates the interior of your cabinetry with a warm, even glow—effortlessly showcasing your finest dishware and adding a sophisticated ambiance to your kitchen.

# SOFT-CLOSE DRAWERS

Soft-close drawers that finish the job for you, no slamming, no rattle. Less wear, less noise, and a finish that lasts.

# HOW TO PROTECT YOUR HAND-CRAFTED, SOLID HARDWOOD INVESTMENT!

Thank you for investing in your new Hand-Crafted, Trailway dining set. We want you to enjoy your new furniture for many years to come. Please follow the tips to ensure the longevity of your new furniture.

## CLEANING RECOMMENDATIONS

A soft, damp cloth is all you need to keep your fine heirloom furniture looking like new. Wiping with a dry cloth can harm the furniture's finish by scraping small dirt particles into the surface. If you choose to polish your furniture, **Avoid products with silicone, wax, solvents or abrasives.** Your dealer will recommend a suitable polish.

## SUNLIGHT EXPOSURE

While you may like lots of sunlight in your home, sunlight's ultraviolet rays can damage wood. Make sure your new furniture is not in a location where the sun will shine directly on it or use sun screening drapes during intense sunlight hours. Fluorescent light fixtures can also cause changes in the wood or finish of your table. **PLEASE** be careful when using laptops or tablets on the tabletop, as these can get hot and could scratch the finish.

## HEAT EXPOSURE

Heat registers and other heat sources can cause damage to your new dining set. Be sure to place it in an area where there is air circulation and heat sources are not directly blowing onto the table and chairs. Do not place hot pans directly onto your tabletop. A table pad will create a barrier between a hot pan and the wood surface. At a minimum, a heavy-duty tablecloth and trivets should always be used.

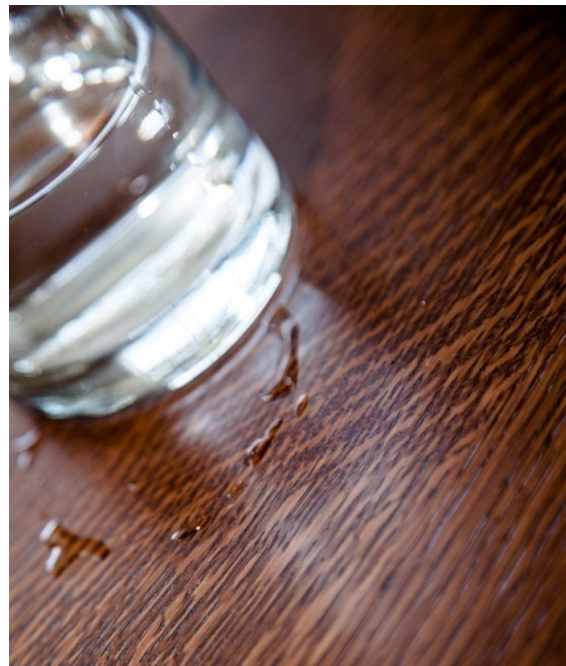

## HUMIDITY CONTROL

The humidity in your home can affect wood furniture. If the humidity is too low, it may cause your Trailway furniture to dry out or crack. In contrast, high levels of humidity may result in warping. By keeping the humidity level in your home around 40-45%, you'll have the ideal environment for preserving the beauty of your new furniture.

## NAIL POLISH REMOVER

Although we use a high-quality heat-and-moisture resistant finish on our tables, nail polish remover can cause severe damage to its finish. Please avoid using it unless you cover the table surface first with a table pad.

## WATER RESISTANT FINISH

The finish on your table is spill-resistant, but it's a good idea to wipe up any moisture immediately. Standing liquid will cause damage to the wood and finish.

## FINISH RESISTANCE

Chemical resistance tests are performed to check the coating's ability to withstand substances typically found in kitchen and bathrooms. Aristovar meets AWI specifications TR-4 rating for chemical resistance.

Water	24 hours	- No Effect
