CATALOG 2024
80TH ANNIVERSARY EDITION

80 YEARS PROUD

MADE IN DORSET, VERMONT

A NOTE FROM THE OWNER

In 1952, a decision was made by the New England milk processors that indirectly had a critical impact on the newly created JK Adams company. The milk producers, looking to reduce cost and improve efficiency, began to require dairy farmers throughout New England to purchase bulk tanks for milk storage on the farm. Prior to that milk was stored in individual cans, then transported daily to local creameries to be processed into butter, cheese, and milk, which was labor-intensive and thus expensive. This change would be much more efficient but would cost individual farmers a significant sum to invest in a stainless steel tank. Cash many did not have or were simply not willing to invest. In 1950, Vermont had approximately 10,000 small dairy farms—often 25 cows or less. In five years, a third of those farms ceased to exist.

This decision, for Malcolm Cooper and Josiah K. Adams—the partners struggling to get a small woodworking factory up and running—presented a group of displaced farmers, many of whom were willing to go to work in a factory. It was a godsend.

My father often remarked that he was surprised, almost shocked when he arrived in Vermont in 1949 to partner with JK Adams, to find this pool of talent. People—men and women—willing to work hard for eight hours, and thought nothing of working extra hours on Saturday. Folks who had practical hands-on experience working around machinery. Experience building things. Women who were used to working alongside their companions on the farm, handling a multitude of tasks. Most all seemed to believe that eight hours working in a heated building (with indoor plumbing) was actually not that hard of a way to spend part of the day and still be able to go home and tend to chores at the homestead for six or seven more hours.

Honest straightforward, direct, careful—stubborn occasionally—were words used to describe the workforce in the 50's and 60's. This workforce has kept JK Adams alive and allowed it to thrive and grow over the past 80 years. Today, very few of those original workers are still with us, however, sons, daughters, grandchildren, great-grandchildren, nieces, and nephews are still on the payroll, still with the same attitude and the same work ethic.

JK Adams is a living example of a famous quote by a famous American manufacturer.

“You can take my factories, burn up my buildings, but give me my people and I’ll build the business right back again.”

—Henry Ford

A side note of interest: the JK Adams company burned to the ground in 1963. It was quickly rebuilt by these very same employees.

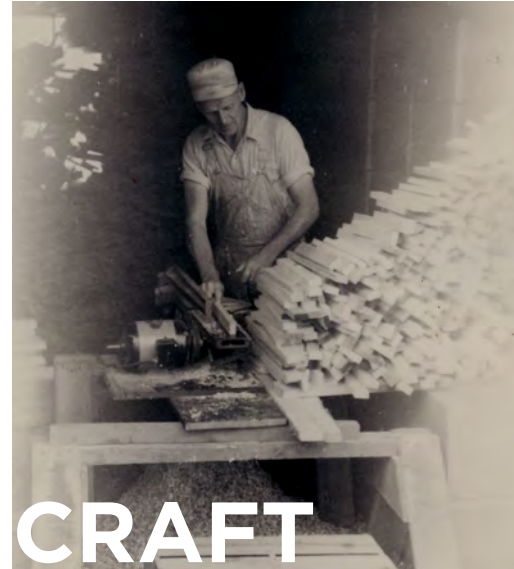

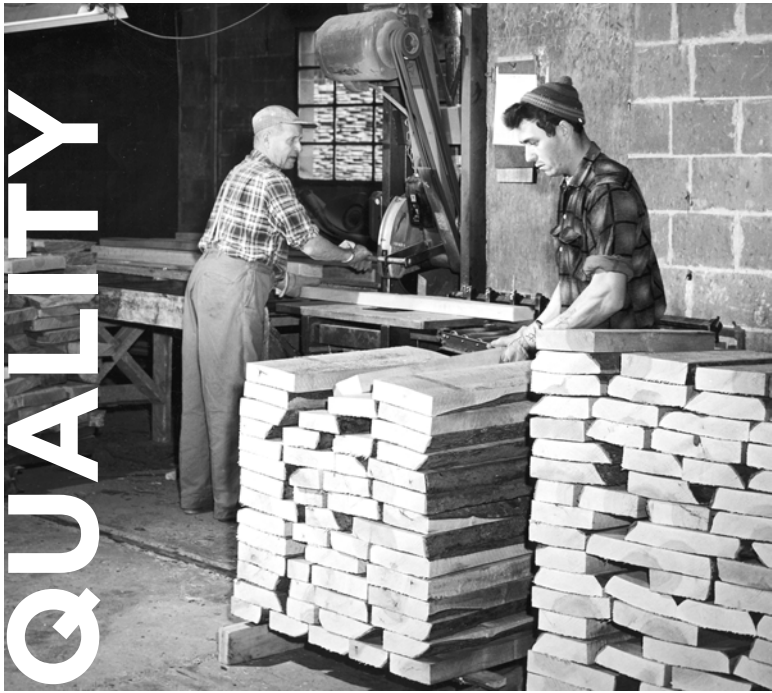

This dedicated and capable workforce coupled with the vision and flexibility of the various management team members over the years, overseen by one family since the 1960's has always been willing to adapt to changing markets, willing to try new ideas, willing to listen carefully to customers. Being frugal, trying to stay humble, have likely kept us out of serious trouble.

Going into this 80th year, we are quite proud to have everything made in our same factory in our hometown, in New England, in the USA. Using local materials and local people with local ideas.

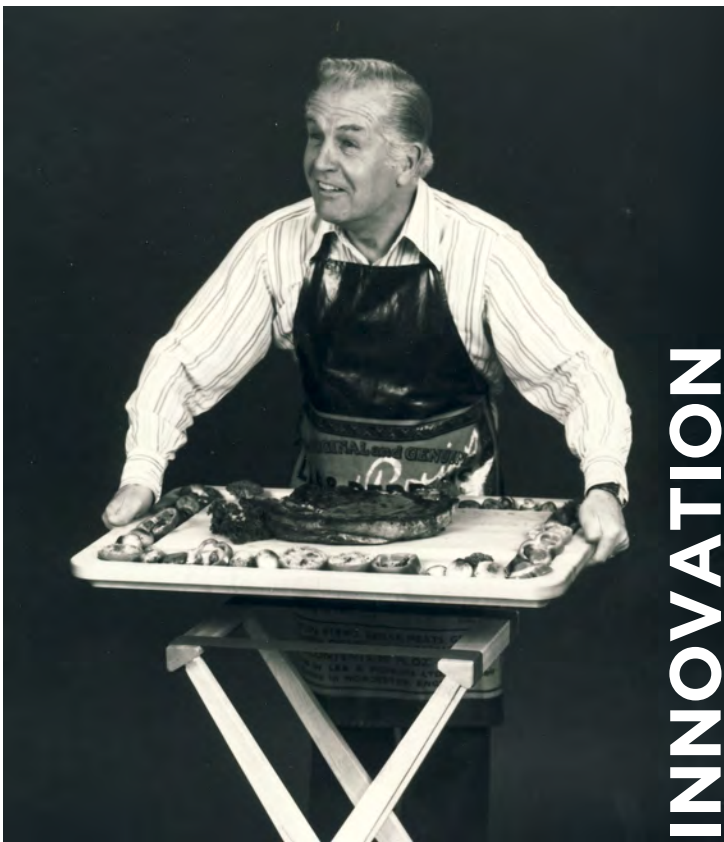

— Malcolm Cooper

SERVING + ENTERTAINING

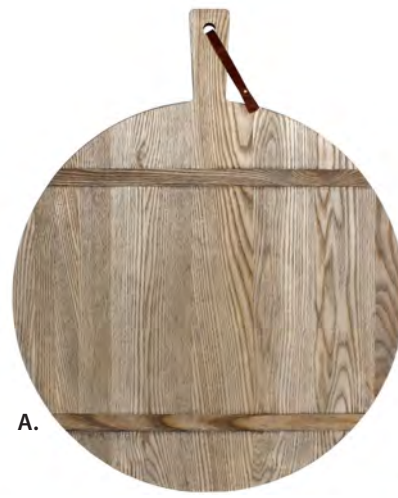

SERVING BOARDS WITH CHARACTER

New England is famous for its tight-knit communities and commitment to craft. Our entertaining collection encapsulates the feeling of hospitality and enduring quality.

1761 COLLECTION

Dorset, Vermont, the town we call home, was incorporated in 1761. This collection honors that year, and the talented craftspeople who have shaped our community since its founding. These boards make ideal statement pieces on a countertop, and are made for a cheese and charcuterie party of any size. *American Ash finished in our exclusive driftwood tung oil. Classic brown leather strap.*

SHACKLETON-THOMAS ARTIST COLLABORATION

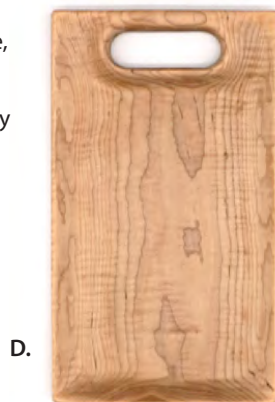

We're proud to manufacture the Shackleton-Thomas collection in our ongoing series of artisan collaborations. Shackleton-Thomas is a renowned Vermont furniture and ceramics maker who prides themselves on outstanding quality and heritage traditions. This collection for JK Adams represents an artisan collaboration fusing design and manufacturing. Together, we've compellingly recreated handmade objects, highlighting the craft, heritage, and ingenuity of Vermont-makers. Each board has a unique name and character.

The **Miranda Board** is a simple concave platter—perfect for appetizer service, serveware, or for décor in the home.

The **Charlie Board** is a crafted Maple rectangle, having a unique protruding ovular handle. This board makes a statement piece in any kitchen—but works similarly well for charcuterie, cheeses, and simple prep.

The **Intruder Board** is made for a party. This paddle stands by its name, and can be elegantly held from its shaped handle, while carrying hors d'oeuvres and appetizers. And, to boot, it slides perfectly between two people at a cocktail party. Each board is silky-smooth to the touch, and has a unique handmade feel. *American Maple finished in our mineral oil and beeswax.*

BAKING

BAKING TOOLS FOR THE HOME PRO

All the tools needed crafted in the USA for a lifetime of baking. Classic and refined, our baking collection is designed with quality materials and brings joy to the kitchen in its simplicity.

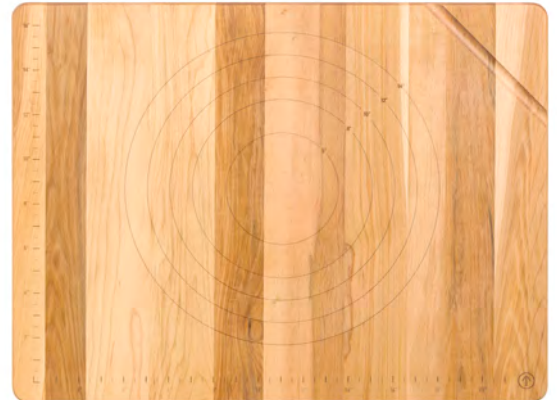

ULTIMATE PASTRY BOARD

Designed with input from our customer-community of bakers, these pastry boards have all the features you want for making perfect pie crusts, pasta, breads, cookies and more. The large size is made of sturdy maple with a handsome Walnut edge-cleat that holds the board securely against your counter's edge while rolling out dough. The more compact version is the perfect gift for apartment-dwellers and small space lovers. At 20 x 15" inches, with a Maple edge-cleat, the board still allows ample surface for rolling out pastry dough, or getting a pizza prepped. The engraved rulers and guide marks make pastry-making a joy. Includes edge rulers and markings for various diameter rounds. The large size also includes a handy corner pin rest to keep your rolling pin from getting away. *Maple board with an American Black Walnut cleat (large) and Maple board with Maple counter cleat (small), finished in our mineral oil and beeswax.*

WOOD CONDITIONERS 

Built to last a lifetime, our beloved wood cutting boards, bowls and utensils can, in many ways, tell the story of our lives. Always at the center of what's going on in our kitchens and setting a beautiful stage for our meals, these enduring culinary tools are our trusted culinary companions. With just a little TLC, they will reward us for a lifetime. All you need is JK Adams **mineral oil** for regular upkeep—and for that extra-special tune-up and protection—a good buffing with **beeswax**. While mineral oil is designed to penetrate and feed the wood, beeswax gives the surface a healthy sheen, an extra measure of water stain-resistance, and helps to retain the moisture provided by oil. Mineral oil is offered in 8 and 16 oz. bottle sizes with an easy-pour dispenser cap.

Our board **shampoo cleanser** is a natural soap that is low in acidity, making for an excellent wood board scrub. This also conditions the wood, making for a great addition to any care and maintenance routine.

- A. MO-8 8 fluid oz. MSRP \$9.50
- B. MO-16 16 fluid oz. MSRP \$19.50
- C. BW-06 6 oz. MSRP \$19.50
- D. WC-SPO 8 fluid oz. cleanser MSRP \$12.50

FORMULA 67 + 68

All natural, food-contact safe compound comprised of MCT fractionated coconut oil, carnauba wax, beeswax.

For all natural care, use our **Formula 67**, a play on a wood conditioner of yesteryear—our now retired Formula 66. This paste-like mixture is an all natural, food safe, wood conditioner comprised of MCT fractionated coconut oil, organic carnauba wax, and beeswax. The tin is finished with a JK Adams applicator pad contained inside for easy use.

Our liquid **Formula 68** is an all natural, food safe, wood conditioner comprised of MCT fractionated coconut oil, organic carnauba wax, and beeswax with a hint of lemon essential oil for fragrance. Fragrance dissipates upon use. Formula 68 is a liquid cream consistency for easy application with a lint-free cloth. 8 and 16 oz. bottle sizes with gold-toned dispenser cap.

- E. FORMULA-67 3.75 oz. MSRP \$19.50
- F. FORMULA-68 8 oz. MSRP \$19.50
- G. FORMULA-68-16 16 oz. MSRP \$39.50

TAKE CARE

With regular care and maintenance, your wood products will last a lifetime. Be sure to invest in a routine of care. It only takes a few minutes!

WOOD CARE KITS

Two tidy kits containing our most popular wood care items.

Our **Natural Care Kit** includes our Formula 67 and our fine grit sanding sponge. The included fine-grit sanding spongemakes refinishing and revitalizing your board possible after years of use. Gently take care of raised wood grain, or give your stained board a new lease on life.

Our **Classic Care Kit** includes an 8 ounce bottle of mineral oil, a 6 ounce tin of beeswax wood conditioner, a wood handled applicator, and our fine grit sanding sponge. Our simple Maple wood-handled foam brush makes applying your care product—oil, paste, or wax—a breeze.

WINE RACKS

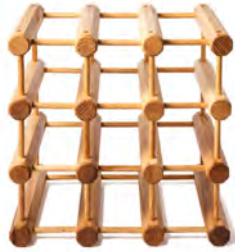

A CLASSIC IN MODULAR STORAGE

The JK Adams modular wine storage system has been in production for over 40 years. A tried and true product for the home and connoisseur. Made in the USA from North American hardwoods.

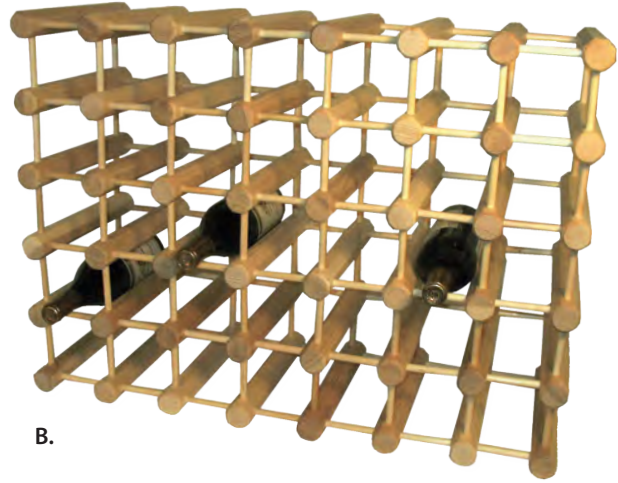

WINE RACKS

Our modular racks are infinitely (and easily) expandable and each comes with extra joining pins to allow for additional racking. These racks have become mainstays for both amateur and serious at-home wine collectors. Our Modular Wine Rack is a simple and classic way to store any collection of wine. The smaller rack will hold 12 bottles when you store bottles on the top of the rack as well as inside the squares. The octagonal beams will keep the wine bottles in place. Our modular wine racks give you the flexibility to build a wine rack that will fit in any space no matter how big or small. Each rack is infinitely expandable and comes with extra joining pins to allow for room to grow. *North American hardwood.*

- A. MWR-B12-N 12 bottle *Natural* MSRP \$59
- B. MWR-40-N 40 bottle *Natural* MSRP \$189
