

maxtrix[®]
CHILDREN'S FURNITURE SYSTEM

One Bed. Endless Possibilities.

Welcome to Maxtrix®

The furniture system that grows up.

Maxtrix® is based on a simple idea—we believe you should purchase kids furniture essentials only once and it should grow up with your child.

A basic bed can turn into virtually any bed combination you desire by simply adding leg extension kits, a 2nd or even 3rd bed. We also offer fun accessories such as slides, top tents, towers, and under-bed curtains and when your child is a little older, you can easily create comfy study environments or add space-saving storage solutions made to fit exactly under most of the beds.

The result is a versatile bedroom solution that literally grows with your child so you can optimize playtime, space and design at every stage of your child's development from toddler, tween, to teen.

There are too many options to show everything—so if you do not see your ideal combination, please ask your local retailer or visit us at maxtrixkids.com.

We hope you have as much fun discovering Maxtrix® as we have creating it!

The crib is too small, what now?

Buying the first real bed for your little one is exciting, but there is a lot to consider—safety, comfort, style—and of course, fun!

The Maxtrix® bed is the centerpiece of our system and the perfect starter bed for your child. Optional safety rails make it a perfect choice for the transition from a crib.

Dress it up with Maxtrix® pillows and bolsters to create a room that is both comfy and stylish. Add storage drawers or a trundle for more space and turn your house into the favorite spot for sleepovers!

Play Lofts

The Maxtrix® Loft is Fun Central!

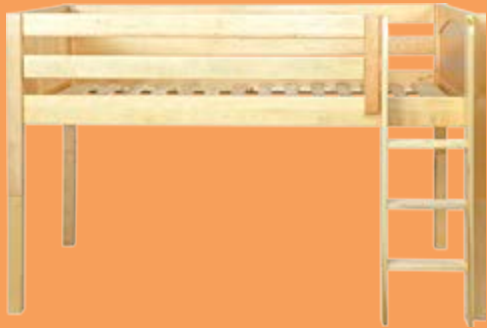

Just add leg extensions and fabrics to turn your daybed into a fun Loft. This Maxtrix® best-seller is an absolute kid favorite. Our beautiful fabrics create a fully functioning playhouse right under the bed—no adults allowed! Just add a slide, a tower, a desk or extra storage: Create your perfect kids bedroom and let the fun begin!

Add a slide!

Did you know?

You can “grow” your Low Loft Bed! Remove the curtains and slide, add leg extensions and an extra step to create a taller Loft once your child is ready.

Customize your Loft

Add a slide to your Maxtrix® Loft or Bunk

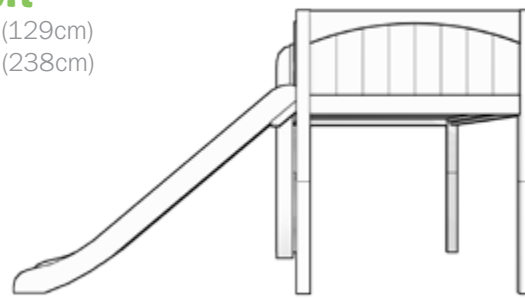

Kids love slides! You can now add a slide to Low, Medium, and High Lofts or Bunk Beds. For taller beds we have invented the slide platform which doubles as an entry too, with straight ladder steps built into the side.

Did you know?

You can attach the slide platform to any Loft or Bunk bed.

Dovetail Drawer Construction

All of our drawers are crafted using English dovetail joints. This provides a long lasting connection between the drawer fronts and sides!

Undermounted Drawer Glides

Under-mounted, soft-closing, drawer glides are installed on each drawer. Safety pins lock drawers in place to keep them from being pulled out completely.

Solid Wood Construction

We use premium hardwood in our dressers and other case goods. Only Maple, Birch, and Aspen with no visible knots are accepted.

MaxMattresses

Time to find the perfect mattress for your new Maxtrix® Bed?

All Maxtrix® Beds can accommodate regular sized mattresses, but we strongly recommend low profile mattresses (5-8" tall) to optimize safety rail height for the top Bunk or Loft and headroom for the bottom Bunk. That's why we made MaxMattress: a superior quality, low-profile, mattress perfect for Bunks and Lofts!

Maximum Safety At 5" tall, our line of mattresses combines superior comfort with maximum safety. We used premium materials where it matters and saved on "fillers" to make these mattresses slim but comfortable.

Guaranteed Safety and Purity of Materials: All MaxMattresses are CertiPUR-US® certified, so they are guaranteed to be manufactured without any harmful chemicals or metals. They are tested for Low VOC (less than 0.5 parts per million).

Why MaxMattress?

Smart Surfaces: The ticking of Maxmattresses is made with Organic Cotton. MaxMattresses are also treated with NanoTex®, a fabulous material that helps moisture bead off the surface. So when a spill happens, your mattress is protected and can dry easier.

Made in the USA!

All MaxMattress products are made right here in the USA.

- 4" bio-foam provides firm spinal support
- 1" sculpted bio-foam promotes even weight distribution and air circulation
- Available in trundle size*

- Bio-foam encased steel spring coils for comfort and firm spinal support
- Additional layer of bio-foam on top and sides for softness

- 2.5" biofoam provides firm support
- 2" memory foam contours to body shape for even weight distribution and pressure reduction

- Eco-friendly materials
- Superior comfort and support
- 2.5" of bio-foam
- Topped with 2" of high density luxurious Latex
- Long lasting, resilient
- Excellent air circulation
- Even weight distribution
- Cool in summer and warmer in winter

All MaxMattresses have the following features

- ◇ Treated with NanoTex®
- ◇ Hypo-Allergenic and Odorless
- ◇ Available in Twin and Full
- ◇ Made in the USA

Soft Organic Cotton Fabric

Flame Retardant

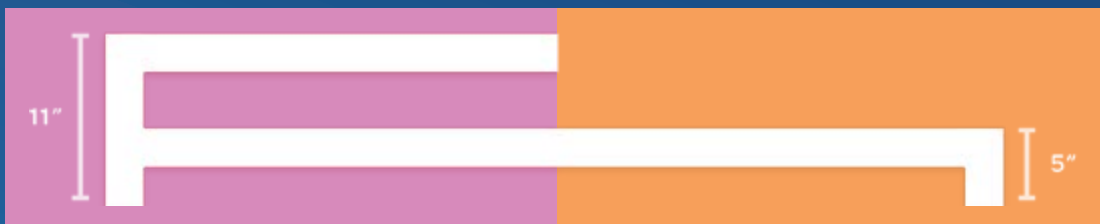

Did you know?

The MemoryFoam MaxMattress is our most popular choice.

Safety—Our Number 1 Priority!

Safety is everything—so we thoroughly test all Maxtrix® products and components annually to ensure everything meets our stringent standards—from finishes and lacquers to the individual pieces of hardware.

Maxtrix® products don't just meet Federal Safety standards—in many cases we exceed them, especially when we feel going the extra mile can make a real difference. For example, our 16" safety rail rails provide superior protection to kids sleeping up high.

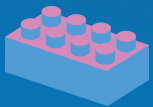

Maxtrix® with a MaxMattress

Other Guard Rails

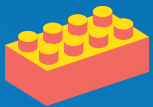

Safety Building Blocks

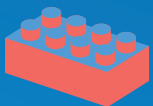

Ultra strong, rock solid beds hold 800lbs—double the US standard*

Tallest guardrails in the industry—16"

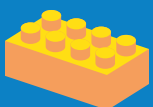

Kid-safe stains, lacquers, and glues (low VOC, lead-free, and non-toxic)

Anti-entrapment ladder design with anti-slip steps & handrails for extra support

Anti-tip kit for all tall dressers & bookcases

Conforms 100% to US Safety Standards

Quality Construction

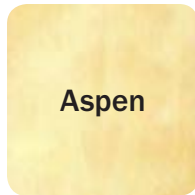

Maxtrix® is a System—so it is designed to be built and re-built over and over again. That's why—unlike other furniture brands—Maxtrix® is made from sustainably sourced solid hardwood like Maple, Aspen and Birch. Maxtrix® uses durable materials that are meant to last.

Maple

Birch

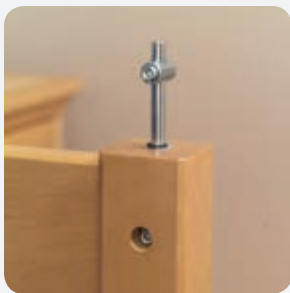

Aspen

Pine

Rubberwood

Rock Lock™

At Maxtrix®, we provide one of the most amazingly adaptable bed systems on the market! With our leg extensions, a regular bed can quickly convert to Low, Mid, High or Ultra High Loft or Bunk. With our Rock-Lock™ connection, bed conversions are easy and super safe. Our system safely compresses the leg extensions onto the bed legs, via a solid steel bolt, and includes set screws that wedge themselves into the bolt opening. The result is a rock solid connection.

Smart Design

With over 1,000 components available to customize your perfect solution, Maxtrix® is the largest kids furniture system in the world. Our designs are incredibly versatile and each piece is engineered to fit together so you can create what suits your space today and re-use your Maxtrix® furniture pieces over and over again as your needs change.

“Love that it will transition with him as he grows!”

About Us

Family owned and operated since 2004, we are a Kids and Youth Furniture design and manufacturing company headquartered in beautiful Charleston, SC. Being parents ourselves, we “real-life-test” all our products, and we love helping families make the most of their Kids Rooms. We specialize in creating smart solutions and unique designs that you won’t find anywhere else. If you don’t see what you want in this catalog please ask us or your local retailer and we will do our best to customize a great solution for you.

Our focus is on great quality solid hardwood furniture, which we manufacture in our dedicated factory in Vietnam.

From our warehouse in Lexington, NC we ship our products all over the USA and Canada, and sell to our international customers in Asia, the Middle East, and beyond.
